

Sunny Engineering Works

Since our inception, we are instrumental in Manufacturing, Exporting and Supplying premium quality Bar Peeling Machine, Draw Bench for Bar & Tube, etc. These machines are demanded for their smooth functioning and sturdy construction.

Profile

Founded in the year **1993**, at **Vadodara (Gujarat, India)**, we, "**Sunny Engineering Works**", are the most reckoned **Manufacturer, Exporter and Supplier** of an enhanced quality **Bar Peeling Machine, Draw Bench for Bar & Tube, Bar Polishing Machine, Black Bar Straightening Machine, Coil Draw Machine, Coil Straightening & Cutting Machine, Pre-Straightening Machine, Section Straightening Machine, Disc Polishing Machine, Pipe Straightening Machine, Tube Die Head, Bar Pointing Machine, Doom Type Fabrication Structure** and many more. The offered machines are manufactured with the help of supreme grade material and advanced technology in compliance with set industry standards. These machines are widely used in number of industries for straightening, shaping and manufacturing wires and steel pipes. Our offered machines are strictly checked on different quality parameters assuring their flawlessness at user's end. Our offered machines are highly demanded by our clients for their unique features such as sturdy construction, high efficiency, smooth functioning, rugged construction, long service life and durability. In addition to this, we also provide **Fabrication & Engineering Job Work** to our clients.

In order to manufacture these machines in a hassle free manner, we have developed a sophisticated infrastructure facility. Spread across a vast area of land. These facilities are installed with several, high-tech machinery and cutting-edge technologies, which facilitates us to utilize all the resources in a keen manner. Owing to the support of our ultra-modern infrastructure, we have been able to augment our production capacity and successfully meet the specific demands of clients. Apart from this, we have divided our infrastructure into various units like manufacturing, quality testing, research & development, etc. These units help us in maintaining a conducive working atmosphere.

DOOM TYPE FABRICATION STRUCTURE

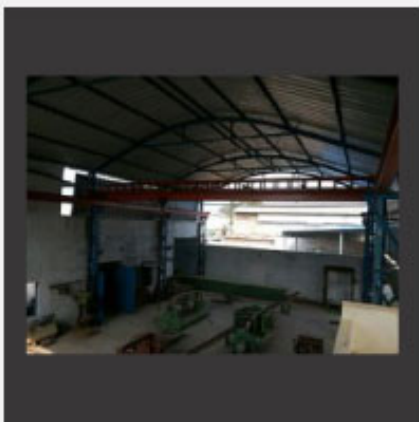

Owing to perfection and quality oriented approach, we have carved niche in the industry by offering an enormous grade array of **Doom Type Fabrication Structure**. Provided structure is highly acknowledged among our clients for its sturdiness, corrosion resistance, easy installation and durability.
